Welcome to the

Ellingson Simmentals

17th Anniversary

Performance Bull and Female Sale

Dear Friends

It is my pleasure to invite you to our 17th annual production sale. This year is even more exciting for us as we have built a sale arena that my family calls the Ellingson Event Center. It is heated so you don't have to worry about our North Dakota weather. We not only have moved our sale to the farm, but we have moved up our sale to the fourth Friday in January, this year it will be held January 27. The building project was complicated somewhat by the summer windstorm on June 17 that blew away a machine storage shed, three grain bins, most all of our windbreak and hundreds of trees being blown down on fences and buildings. If that was not enough, it seems we are back to the good old winters where there is a lot of snow and cold weather.

One of the other primary reasons for moving the sale to the farm was biosecurity measures that affect our sale cattle moving them back and forth to an auction barn, which would also include the added risk of injury in transporting them back and forth from the farm. I think in the long run this will benefit both my customers and myself in that interaction with cattle outside of my operation will now be much more limited.

As I go through the sale cattle, I must say this is the best set of cattle I have ever offered, I think when you go through the pens you will agree. I have not yet stated that the auction on our farm will be a strictly video auction, we will have pens set up close to the sale facility, but no animals will go through the event center, this will increase the simplicity of running the auction.

I must thank you for your continued support and for your quest for finding the best genetics that will work for your operation. My job is to continue to seek out the quality that you demand that will help you take your herd to the next level and also improve my genetic base. We have purchased the USA semen rights on an exciting red bull named Harvie Red Summit 54B. He was champion bull at the Olds Fall Classic, the National Simmental Champion bull at Farmfair and Supreme Champion over all breeds and the Reserve Champion bull at the Canadian Agribition in Regina. He is a beautifully made bull who is powerful yet has calving ease!

Because of the change in market conditions for the beef industry, it becomes even more evident that one must seek out seed stock that has the most potential for you to sell pounds of beef. Our program has been focused on high performing cattle since we began in 1990, and I think you will see the evidence in this group of sale cattle.

We would like to thank the Dean Stroh family for again helping us with our embryo program, these calves were weaned later than ours so we were unable to get side by side comparisons, but I think you will still be able to see the genetic potential in the embryo lots. We once again welcome McDonald Farm and Simmental and Strommen Simmentals as guest consignors, and I would like to thank Eric Ralston and Bryan Haugen for their efforts to make this sale happen.

The bulls and heifers have been fed rations formulated by Purina to insure long term growth and development. The bulls were fed a ration that went up to 50 Mcal, I felt the gains we were getting was enough to keep them at this level and make sure the longevity of these bulls was not sacrificed by overfeeding. The maximum grain fed per day was 10 pounds of corn, a protein/vitamin mineral supplement, corn silage and chopped alfalfa and grass hay. The heifers were fed a grower ration to allow for sufficient development and high reproductive performance. We will ultrasound all bulls and heifers for rib eye, back fat and marbling, bulls will be scrotal measured and semen tested and frame scored. Check on ellingsonsimmentals.com for these updates. The testing of polled gene, color and dilution was done by Igenity/Genesseek.

We invite you to come to the farm prior to the sale to inspect our sale offerings. If this is not possible, we will have all lots video taped so you can find them on our web site or on DVAuctions web site. The auction will be broadcast on the internet and DVAuction will conduct the presentation of the lots at sale time in our heated shop. If you prefer to be on the phone, please call ahead of time so we can have someone call you about your selection and help with the bidding.

Once again, thank-you for your interest and support, it means the world to us. We appreciate your confidence in our breeding program and we are working hard to produce the best genetics for you in the future. Please let us know if there is anything we can do to assist you with your selections, lets enjoy the ride we are on in the best business in the world, the BEEF industry! Have a great 2017!

God Bless,
Terry Ellingson

Sale Schedule

January 1 – 26

View cattle at the farm or on video

January 26

7:00 pm - Social at the Farm

January 27

11:00 am - Complimentary customer appreciation lunch
at the Farm

1:00 pm - Performance Bull and Female Sale.

Terms of Sale

All sales are cash on day of sale.

Conditions of Sale

All animals are sold in accordance with guidelines of the American Simmental Association. Copies are available at the sale barn.

Health Comments

Ellingson – Vaccinated with 7way/HSomnus, Inforce, Pyramid5/Presponse, Nuflura, Express 5 HS booster, heifers bangs vaccinated, Bovishield Gold FP 5 VL5, poured with Ivomec. Herd is participating in ND Voluntary Johne's Disease Status program, Status negative Level A.

McDonalds – Vaccinated with Pulmo-Guard PHM-1, Inforce 3, Cattlemaster Gold 7ps, Vision 7 20/20, Moraxella Bovoculi, Ultra Saber, Ultrabac 7 Somubac, One Shot, poured with Ivomec and the heifers have had their bangs vaccinations. Herd is participating in the ND Voluntary Johne's Disease Status program, Status is negative Level A.

Strommens – Bulls vaccinated with Cattlemaster 4 VL5, 7way/HSomnus and poured with Dectomax. Igenity tests and ultrasound data will be available by sale day. Our ranch is participating in the ND voluntary Johne's Disease Program and is status negative.

Announcements

Announcements on sale day take precedence over printed material.

Insurance

Insurance will be available sale day.

Trucking

Haul your bulls home sale day and receive a \$50 per head discount. Free delivery within North Dakota or 250 mile radius if delivered by April 15. No discount on heifers, please make arrangements to haul heifers to your ranch soon after the sale.

Risk

All animals are at purchaser's risk after sold. Anyone attending this sale attends at his or her own risk.

Registration Papers

Papers will be provided to purchaser after the sale.

Feeding

We will feed your bulls for \$2.00/day beginning April 1. We are not responsible for accidents to your bull during this time. We recommend taking insurance, please see Jeff Thomas.

Semen Interest

We reserve one third revenue sharing semen interest in all bulls. We reserve the right to collect 100 units of semen for in herd use at your convenience and our expense.

Canadian Buyers – We will guarantee cattle pass health requirements and will deliver your purchases to border crossings in ND. All export fees need to be paid by buyer for purchases under \$2,500.

Motels

Alexander House, Park River, ND 701-284-7141
Motels to east in Grand Forks and to west in Devils Lake.

Dalton is homozygous black and homozygous polled bull that is a 5/8 Simmental and 3/8 Angus. His pedigree has Ten X on the bull side and Mytty In Focus on the dam side. Curve bending EPD's with growth and calving ease to use on the heifers. Great skeletal design from the side profile, along with a big top and rib shape from behind. He won't be the biggest bull in the pen but don't overlook his pedigree and calving ease with his own 72 pound birth weight.

Duke is a solid red, non-diluter, homozygous polled bull that sure catches your eye. One of my favorites all summer long and he sure hasn't disappointed us with his progress since weaning. Duke ranked second with his 888 pound weaning weight and you will appreciate his extension of side and width of top that carries back into a full quarter. He is really smooth up through his front end and has a great disposition. Duke is out of one of our best cow families.

Dakota is homozygous black and homozygous polled and one of the real power bulls in our offering. He is one of the most complete bulls in the group and when you look at his skeletal package you will see why. He will definitely add pounds to your calf crop and you will admire him for his depth of rib and overall capacity. When viewed from behind, he has a tremendous top and is very wide based that is supported by his natural thickness. Performance bull are the words that I would use to describe him, yet he has calving ease.

Darian is homozygous black and homozygous polled out of Dominator. We have bred his mother to Dominator the last four years because he really clicks on this cow and we finally got a bull. He is a deep-sided calf with a world of performance built in. Width, muscle and masculinity come to mind when you examine him. This bull has some calving ease along with the growth numbers to put some pounds into his calf crop.

Diego is a solid red, non-diluter and homozygous polled bull out of Prime Time. The thing that keeps me looking at this calf is his thickness, mass and the way he handles himself on the move. Eye appeal, performance and sound structure all wrapped up in one package, but still has calving ease with his phenotype, smooth front end and EPD's to back it up.

Dominic is a solid red, non-diluter bull that is polled/scurred. He had our highest weaning weight at 901 pounds and average daily gain on test. You might expect that when you read his EPD growth numbers, but yet has calving ease. His physique is flawless and he is one of our thickest made calves in the sale. He is our youngest calf in the offering but you would never guess it when you see him. He is a complete package both phenotypically and genetically, along with a tremendous set of EPD's.

AI Bred to: J BAR J Nightride 225Z ASA# 2628568 5/24/16 Vet called bull bred due 4/1/17 Pasture Exposed to: Ellingson Dimension B406 ASA# 2909161 6/5/16 to 9/1/16. A very feminine black heifer, that is out of Dominator and bred to a calving ease bull. She is soft in her appearance with a nice hip and big rib. She comes from a proven cow family with an outcross pedigree and her Nightride calf will be impressive.

114 STR 818 CLEO C508 ASA# 3045080

AI Bred to: J BAR J Nightride 225Z ASA# 2628568 5/24/16 AI-3/4/17 or Bull 3/25/17 Pasture Exposed to: Ellingson Dimension B406 ASA# 2909161 6/5/16 to 9/1/16 Cleo is a black heifer that is wide based and moves out with ease. You will admire her from the side with her depth of rib and brood cow look. Her EPD's are curve bending with calving ease and growth numbers. There is something to be said about strong cow families and longevity. She will make a great brood cow for years to come.

AI Bred to: J BAR J Nightride 225Z ASA# 2628568 5/24/16 Vet called safe due 3/5/17 Pasture Exposed to: Ellingson Dimension B406 ASA# 2909161 6/5/16 to 9/1/16 Camille is a black heifer that is beautiful through her front end and sweeps back into a big rib. She moves with a lot of flex and phenotypically you can't make one much prettier. She is one that constantly catches my eye when doing chores and I am sure she will catch yours too. She comes from a strong cow family.

AI Bred to: Ellingson Complete A358 ASA# 2791433 5/24/16 Vet called safe due 3/4/17. Pasture Exposed to: Ellingson Dimension B406 ASA# 2909161 6/5/16 to 9/1/16. I think this red bred heifer with a blaze face sorts herself off to the top. She will certainly catch your eye as she is soft made, yet has a big rib with that brood cow look. Raising cattle would certainly be easy if you had a whole herd like her. She comes from one of my favorite cow families that started with the first purebred cow that we owned.

AI Bred to: Ellingson Complete A358 ASA# 2791433 5/24/16 Vet called safe due 3/4/17. Pasture Exposed to: Ellingson Dimension B406 ASA# 2909161 6/5/16 to 9/1/16. You will have a hard time finding a hole in this sweet disposition female. This red-bred heifer is moderate framed, big ribbed, along with a wide base. She is an easy keeping outcross genetic package, with eye appeal that she will pass on for generations to come. She has the potential to produce your next herd sire out of Ellingson Complete.

We are located halfway between Grand Forks and Devils Lake. If you are coming from the east on Highway 2, turn north ten miles on Highway 32, turn west on GF County #1 three miles, turn south on Nelson County #14 one quarter mile (gravel) and west one half mile. From the west on Highway 2, turn north at Michigan on #35, go nine miles north to Nelson County #1, go nine miles east to Nelson County #14 (gravel), turn south one quarter mile, then one half mile west. Please note: Some GPS systems take you north of Dahlen to get to our address, be sure to turn south of Dahlen to get to the farm. We are the first farm south of Dahlen.
