Welcome to the

# Ellingson Simmentals

## 23rd Anniversary

### Performance Bull and Female Sale

---

Dear friends,

It is my pleasure to welcome you to our 23rd annual production sale, I would like to thank you for your interest and support since we began in 1990. It is with a great deal of excitement that I bring you this year's offering. Our goal in 1990 was to raise Simmentals with high performance with eye appeal, to offer you the best genetics possible to raise the bar in your own program. Because of your challenges to me to diversify my goals, we have brought in some new genetics that will meet all of your needs.

Our entire offering is exclusively the result of artificial insemination or embryo transfer. This does not come easy, I appreciate the dedication of my staff to make this possible. Along with Strommen Simmentals, we also purchased females that were full sibs to CDI Innovator and STF Onyx 451W, which we flushed as heifers and progeny are in this year's sale. Perhaps the most exciting addition this year are progeny from R Plus Yuma 9087G, who sold in the R Plus bull sale for \$150,000 to Labatte Simmentals and Circle 7 Ranch. We were able to purchase the US semen rights, and sales this fall in Canada along with the results of the R Plus dispersion in late December where his full sister sold for \$130,000 and his dam brought \$35,000, will convince you he may be the next great black Simmental sire. Along with this, we were able to purchase from Haven Hill Simmentals a share in the amazing female HHS Georgia 802G. She has proven to be a great breeding female, averaging over 20 embryos per flush and she checks all the boxes I was looking for. Her progeny are stand outs in this sale and we await your inspection. Don't miss the Fab Five black heifer calves out of this mating! Both of these individuals carry the red gene, which makes breeding with them even more exciting to bring to you outcross red genetics! The bred cows in the sale are only being sold because they are not coming with an AI calf and are later than we want. Also special lots include offspring of Ellingson Faith F813 who sold for \$40,000 at the NAILE Select sale in Kentucky, Ellingson Hope F847 who is a daughter of Red Jewel herself and the mother of our high selling bull in 2019 for \$20,000 C572. Another sale feature is the full sib to STF Onyx 451W, sells as lot 113.

Even though this springs moisture made for challenges in the cattle lots, the resulting explosion of grass in the pastures was an amazing contrast to the prior years drought. The cattle enjoyed belly deep grass and had a great summer. As a result the creep feed bill was much less as it was not really utilized. The bull calves were weaned on September 20 and put on a ration with 48 Neg, consisting of 8 pounds of grain with corn and distillers, corn silage, chopped alfalfa and free choice grass hay. This will insure longevity in your purchases with a good indication of their growth potential. The ADG was calculated from a 76 day feed period.

The entire calf crop is on the American Simmental Association Calf Crop Genomics program, with DNA tested using the GGP-LD Genomics test, which gives us genomically enhanced EPD's for selection decisions. The resulting EPD's are similar to an animal that has 25 progeny for calving ease, weaning weight and yearling weight and 22 birth weight measurements, obviously improving the accuracy of the EPD's you are looking for. This also gives parental verification and we tested all individuals that needed homozygous color or polled testing. Our cow herd has also been tested through the Cow Herd DNA Roundup to verify parentage and improve accuracy, along with participating in the ASA Total Herd Enrollment program which also improves data accuracy. This has allowed us to be awarded the Performance Advocate award from ASA in the past.

All bulls and heifers have had ultrasound measurements taken for rib eye size, marbling and backfat, this data will be available on line and at the sale when results return. The bulls will be fertility tested with scrotal measurements taken. You can find this information at [ellingsonsimmentals.com](http://ellingsonsimmentals.com) or [DVAuction.com](http://DVAuction.com) which has the catalog online with videos of each individual lot. Be sure to register early with DVAuction if you are interested in viewing and bidding with this method.

We invite your inspection of our herd before the sale and will have a meal available around 11am in the Ellingson Event Center. If you cannot make it to the sale and prefer not to bid on the internet, we will have phone service available, please contact myself, Bryan Strommen or herdsman Bryan Haugen ahead of time so we can have someone on the phone with you.

Once again, we thank-you for your support and interest in our breeding program. Let us know if we can be of assistance in your sale selection process or have any further questions. Thanks again, stay safe and God Bless. **Terry Ellingson**

Buyers unable to attend the sale may phone or mail their bids to the auctioneer or representatives listed above.

### Sale Schedule

January 1 – 27 View cattle at the farm or on video

January 27

11:00 am - Lunch at the Ellingson Event Center

1:00 pm - Performance Bull and Female Sale.

### Terms of Sale

All sales are cash on day of sale.

### Conditions of Sale

All animals are sold in accordance with guidelines of the American Simmental Association. Copies are available at the sale.

### Volumn Discounts

Purchase two bulls- 2%, three bulls- 3% discount, four bulls 4% discount, five bulls and over 5% discount. No discount on heifers.

### Health Comments

**Ellingson/Strommen** – Vaccinated with Bovishield Gold 5 One Shot, 7way/HSommus, Inforce, Pyramid5/Presponse, Nuplura, Express 5 HS booster, heifers bangs vaccinated, poured with Ivomec, Clean-Up II. Herd is participating in ND Voluntary Johne's Disease Status program, Status negative Level A. Bred cows vaccinated with Scour Bos and Virashield 6 VL5

### Announcements

Announcements on sale day take precedence over printed material.

### Insurance

Insurance will be available sale day.

### Risk

All animals are at purchaser's risk after sold. Anyone attending this sale attends at his or her own risk.

### Guarantee

Bulls are guaranteed to have passed a semen test and are guaranteed for one breeding season.

### Trucking

Haul your bulls home sale day and receive a \$100 per head discount. Free delivery within North Dakota or 250 mile radius if delivered by April 15. Bull delivery begins April 1. No discount on heifers, please make arrangements to haul heifers and cows to your ranch soon after the sale.

### Registration Papers

Papers will be provided to purchaser after the sale.

### Feeding

We will feed your bulls for \$2.00/day beginning April 1. We are not responsible for accidents to your bull during this time. We recommend taking insurance, please see Jeff Thomas.

### Semen Interest

We reserve one third revenue sharing semen interest in all bulls. We reserve the right to collect 100 units of semen for in herd use at your convenience and our expense.

**Canadian Buyers** – We will guarantee cattle pass health requirements and will deliver your purchases to border crossings in ND. All export fees need to be paid by buyer for purchases under \$2,500.

### Motels

Alexander House, Park River, ND 701-284-7141

Sunlac Inn Hotel, Lakota, ND 701-247-2487

Motels to east in Grand Forks and to west in Devils Lake.

MWW:	67.5	TI:	74

This son of our \$20,000 Ellingson Ultimate F830 is heterozygous black and heterozygous polled. The first bull to sell from my herdsman Bryan Haugen, his 3.9 pound average daily gain is ninth highest in the pen. The Ultimate calves are known for their performance and phenotype! His dam is a full sister to Ellingson Ideal X13 who sold for \$36,000.

MWW:	73.4	TI:	82

A homozygous polled, heterozygous black son of our new herd sire R Plus Yuma 9087G. He is a prime example of how Yuma stamps his calves, great phenotype, extreme length, impressive performance with adequate carcass and docility that is second to none. He has the fifth highest adjusted weaning weight, the sixth highest adjusted yearling weight, eighth highest ADG and fourth highest WDA in the pen. One of my favorites!

**4** **ELLINGSON EVEREST K211** ASA# 4088821

Owned by: ELLINGSON SIMMENTALS • Polled PB Bull

Another stand out Yuma bull, you have to admire their exceptional length and profile, this guy will sire calves that will pack the pounds on. He is homozygous polled and heterozygous black. A Yuma son sold in the R Plus bull sale for \$160,000 this past spring. His offspring are just being noticed, grab onto one before they get more popular!

**10** **ELLINGSON STRUCTURE K223** ASA# 4088790

MWW:	64.5	TI:	79

This homozygous black, homozygous polled son of Yuma is special in that had the second highest ADG at 4.7 pounds per day with the tenth highest AYW. He really poured it on when he hit the feedlot. He was actually a low birth weight bull in our herd at 88 pounds that showed his true performance potential.

Kade is a Cowboy Logic/Georgia calf that is a black baldy bull. Herd bull potential here. Look at his extension through that clean front end that rolls back into his sweeping rib. He is a bull but has all the parts and had our highest average daily gain on test. Great spread in EPD from birth to growth with a big API number. You're going to want to keep heifers out of Kade. He tested heterozygous black and homozygous polled. Look at his full sister in the offering.

How does a bull rise to the top in a pen of high performance animals? They must have the factory to convert roughage into gain. This homozygous black, homozygous polled son of Growth Fund has the factory, with a tremendous sweeping deep rib, width of chest and top to house the factory, and the genetic background to make it happen. He has the second highest AWW, the highest AYW at 1627 pounds, the highest ADG at 4.9 pounds per day and the highest WDA of 4.3. You can drive the wheels off of your vehicle to find one that puts it all together like K272. Buy with confidence!! Hit the Jackpot!!

Kandi is appropriately named as she is eye candy. You will have to look hard to find one that has a better phenotype. Her EPD's are curve bending with a big spread from calving ease to growth, along with a strong API number. You also need to note her pedigree is an outcross to anything you can find here in the states. She is truly a breeding piece and tested heterozygous black and homozygous polled. Take a look at her full sisters and bull in this offering. We would like to retain the right to one flush of 6 transferable embryos at your convenience and our expense.
